CLASSICAL PLASTER

FR Gesso, plâtre en italien, en référence à la Renaissance, est une entreprise qu'on ne présente plus sur le marché de la décoration en Belgique.

Société familiale présente depuis déjà 1925 qui s'est fait connaître par son savoir-faire, vouée à ce matériau sobre, écologique et naturel qui embellit nos habitations. Moulures, plafonniers, mais aussi concepts et encastrés lumineux.

Outre les anciennes maisons bruxelloises, c'est en proposant une large gamme de produits design et modernes que Gesso perdure et progresse sur le marché européen.

NL Gesso, Italiaans voor "gips", verwijzend naar de Renaissance, is een bedrijf dat op de Belgische decoratiemarkt zijn gelijke niet kent.

Het familiebedrijf bestaat al sinds 1925 en kreeg bekendheid door zijn knowhow gewijd aan dit sober, ecologisch en natuurlijk materiaal dat onze woningen verfraait. Sierlijsten, plafonniers, maar ook lichtconcepten en inbouwlampen.

Naast de opsmuk van oude Brusselse huizen biedt Gesso een breed gamma aan design- en moderne producten aan, waardoor het bedrijf blijft voortbestaan en vooruitgang boekt op de Europese markt.

IT Gesso, di nome e di fatto, è un'azienda che non ha bisogno di presentazioni sul mercato della decorazione in Belgio.

Una società familiare presente dal 1925 che si è fatta conoscere grazie al suo savoir-faire, dedita a questo materiale sobrio, ecologico e naturale che adorna le nostre case. Modanature, plafoniere, ma anche concetti e incassi luminosi.

Oltre che per il restauro delle più antiche case di Bruxelles, Gesso perdura ed evolve sul mercato europeo per merito di un'ampia gamma di prodotti moderni e di design.

FR Les ateliers, situés à Nivelles en Belgique, emploient une quarantaine d'ouvriers qualifiés qui travaillent toujours de façon artisanale tout en utilisant toutes les nouveautés technologiques disponibles actuellement.

Les projets ne s'arrêtent pas à la manufacture, l'entreprise gère régulièrement de nombreux chantiers de patrimoine ou d'exception. Son expertise y est primordiale.

Désireux de faire évoluer ce métier rare, Gesso exerce chaque jour avec la passion et l'expérience transmise par les anciennes générations.

Gesso, c'est le plâtre, naturellement, mais aussi le Stuc Pierre, l'Eco-Béton®, le Plâtre & Chaux® ainsi que les plâtres et ciments composites.

NL De ateliers, gelegen in Nijvel in België, stellen een veertigtal geschoolde werknemers tewerk, die nog altijd op de ambachtelijke manier werken en tegelijk gebruik maken van de nieuwste technologieën die momenteel beschikbaar zijn.

De projecten beperken zich niet tot het vervaardigen, want het bedrijf beheert ook regelmatig uitzonderlijke werven of werven voor patrimoniumbehoud. Zijn expertise is daarbij essentieel.

Gesso wil dit zeldzaam beroep verder zien evolueren en oefent het dan ook uit met de passie en ervaring die door de vorige generaties werd overgeleverd.

Gesso is gips, natuurlijk, maar ook Stuc Pierre, Eco-Béton®, Plaster & Lime® en composietpleisters en cementen.

IT I laboratori, situati a Nivelles nel Belgio, impiegano una quarantina di operai qualificati che lavorano ancora oggi in maniera artigianale utilizzando ciononostante le ultime innovazioni tecnologiche disponibili.

I progetti non si fermano in fabbrica in quanto l'azienda gestisce regolarmente numerosi cantieri di prestigio e d'eccezione. La sua esperienza è quindi fondamentale.

Desiderosi di far progredire questa professione ormai rara, Gesso crea ogni giorno con la passione e l'esperienza tramandata dalle generazioni precedenti.

Gesso è il gesso, naturalmente, ma anche Stuc-Pierre, Eco-Béton®, Plaster&Lime® e rivestimenti e cementi compositi.

Moulures de façades Gevel moulduren

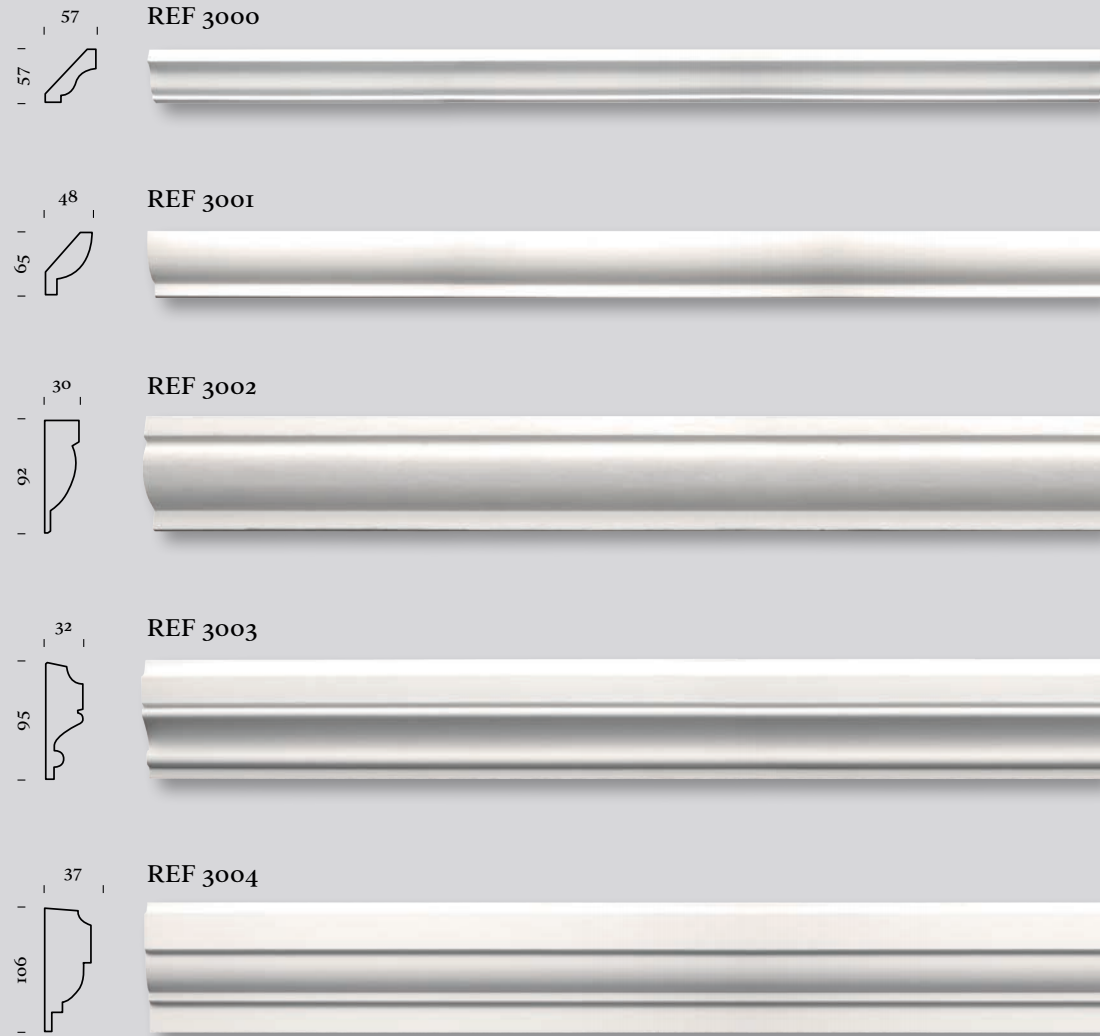

Le PLÂTRE & CHAUX est utilisé sur des façades semi-protégées.
GIPS en KALK wordt toegepast op halfbeschermdde gevels.

L'ECO-BETON est nécessaire lorsque la façade est très exposée à la pluie et au vent.
ECO-BETON is nodig als de gevel sterk wordt blootgesteld aan regen en wind.

FR Les colonnes sont composées à partir d'éléments séparés : les chapiteaux, les socles et les fûts. Ceux-ci permettent des combinaisons variées et s'ajustent à toutes les hauteurs.

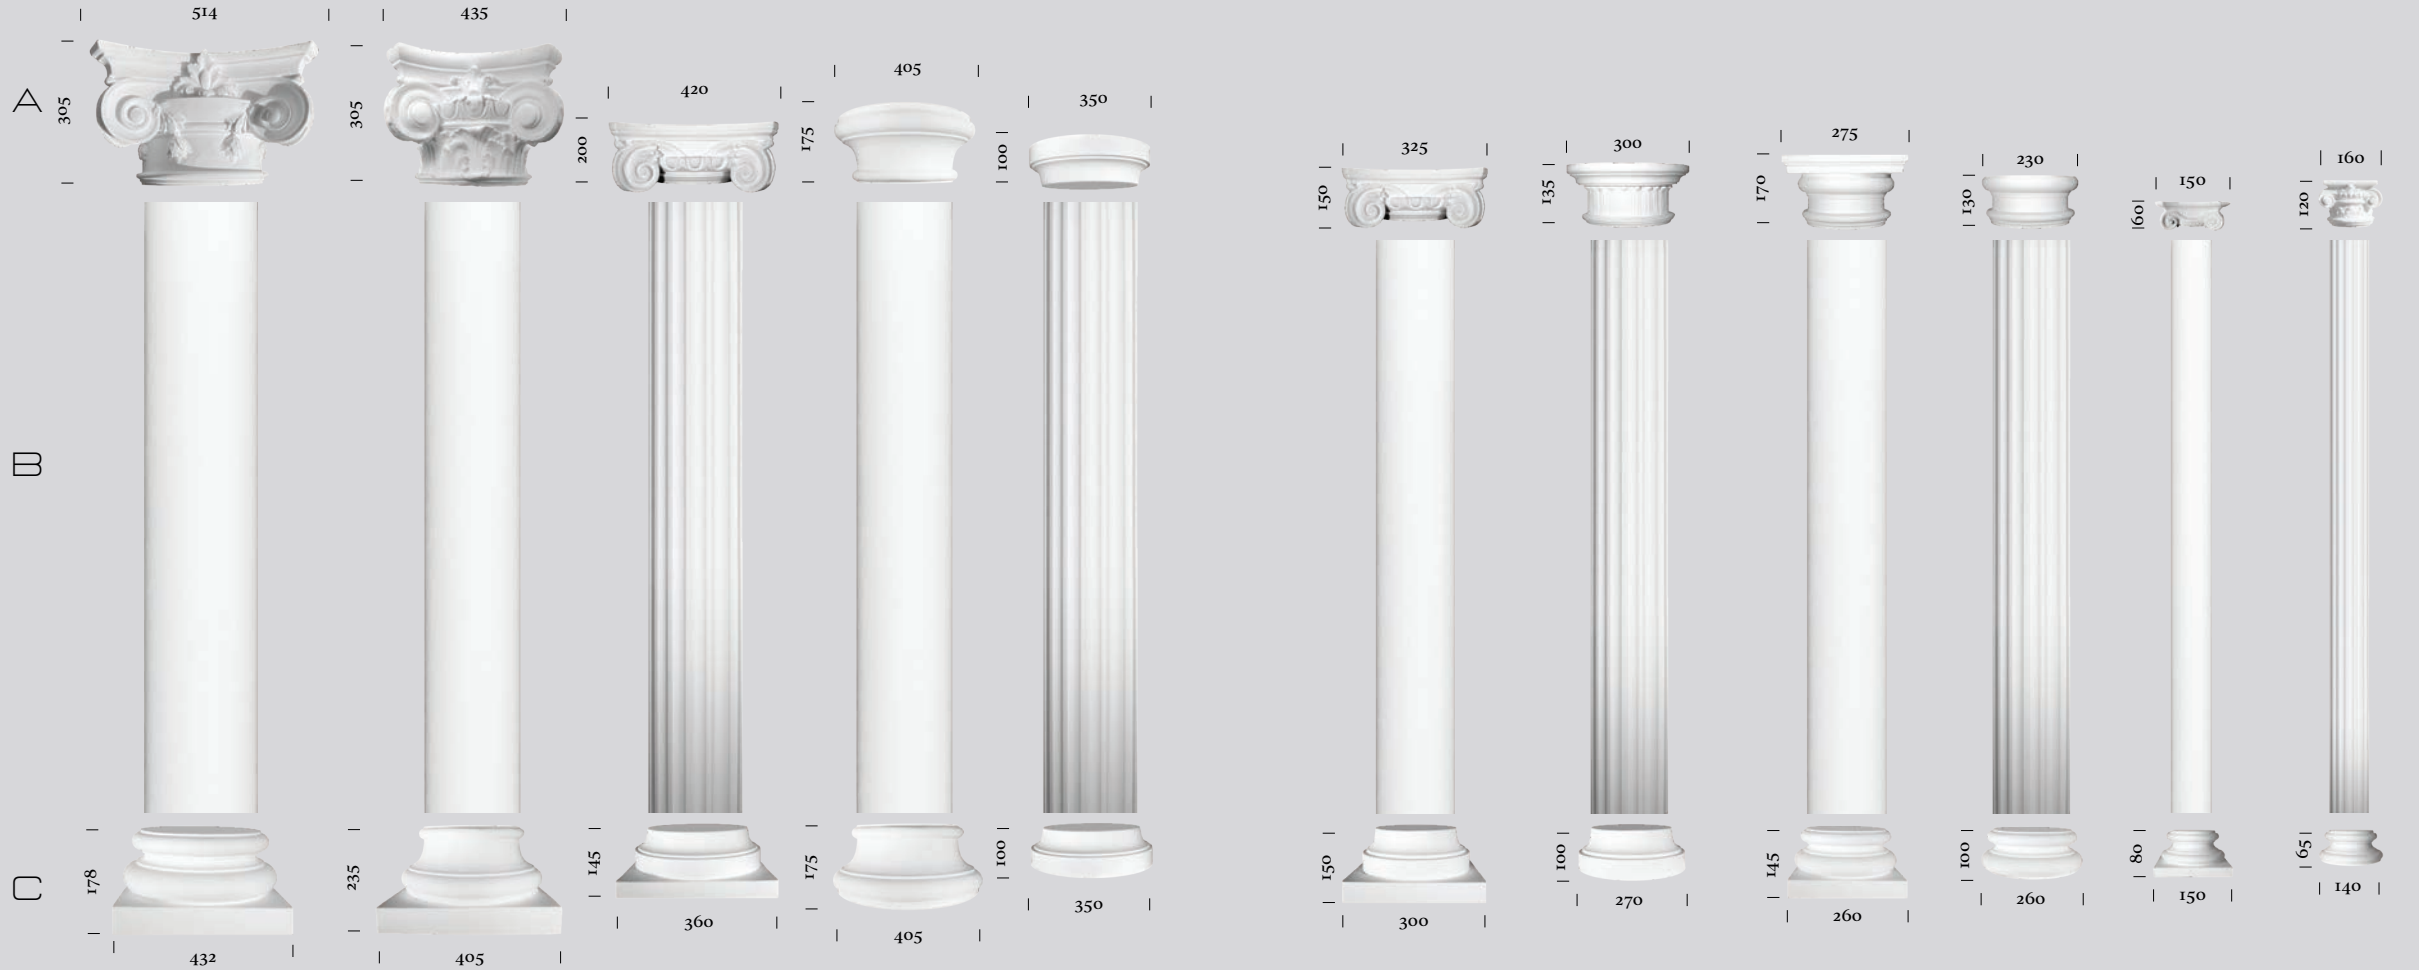

Les colonnes sont creuses et peuvent habiller un pilier existant. Elles sont disponibles entières, en demi à adosser contre un mur, ou plates sous la forme de pilastres.

NL De zuilen bestaan uit afzonderlijke delen ; het kroonstuk, de voet en de schacht kunnen dan ook in een variatie van combinaties gebruikt worden, aangepast aan een willekeurige hoogte.

De zuilen zijn hol en kunnen eveneens een reeds bestaande zuil bekleden. De zuilen zijn beschikbaar als volledige zuilen, halve zuilen om tegen een muur te plaatsen of platte zuilen in de vorm van pilasters.

Design
Francis Da Cunha

FR EasyGips® est une gamme de produits légers en plâtre mise au point par les ateliers Gesso comme alternative à d'autres matériaux non écologiques. De la fabrication à la livraison, cette gamme est conçue pour vous faciliter la vie.

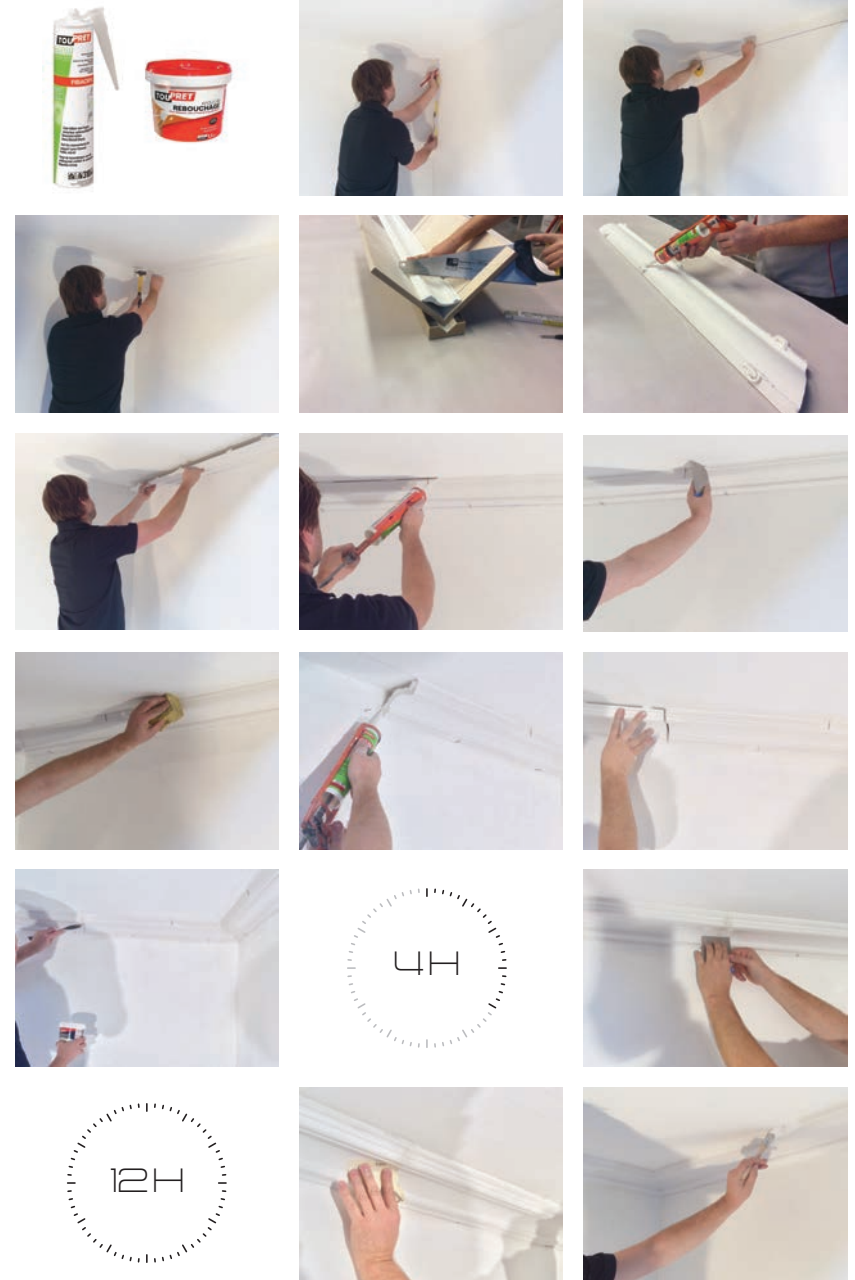

Les produits EasyGips® sont fabriqués en plâtre L.G.R : Light Reinforced Plaster. Un nouveau matériau moderne, écoresponsable, permettant un gain de poids de 30% par rapport au staff traditionnel. Alors que le staff traditionnel, certes de grande qualité, demande un certain savoir-faire, les produits EasyGips® sont très facilement fixés et raccordés grâce à la colle et l'enduit Toupret®. L'installation des produits en plâtre EasyGips® se veut simple, rapide et durable.

Avec EasyGips®, que vous soyez peintre, menuisier, entrepreneur ou simple bricoleur, plus d'excuse pour ne pas choisir la qualité du plâtre !

NL EasyGips® is een assortiment lichtgewicht pleisterproducten dat door de Gesso-ateliers is ontwikkeld als alternatief voor de andere niet milieuvriendelijke materialen.

Van fabricage tot levering, dit gamma is gemaakt om u het leven gemakkelijker te maken. EasyGips® producten zijn gemaakt van L.G.R: Light Reinforced Plaster. Een nieuw modern, milieuvriendelijk materiaal, dat een gewichtsbesparing van 30% tegenover traditioneel baak mogelijk maakt. Terwijl traditioneel staff, dat zeker van hoge kwaliteit is, een zekere knowhow vereist, zijn EasyGips® producten zeer gemakkelijk te bevestigen en te verbinden door de lijm en de deklaag van Toupret®. De installatie van EasyGips® pleisterproducten is eenvoudig, snel en duurzaam.

Met EasyGips®, of u nu een schilder, timmerman, aannemer of gewoon een doe-het-zelver bent, geen excuses meer om niet voor pleisterkwaliteit te kiezen!

QUE SIGNIFIE EASYGIPS® ?
 WAT BETEKENT EASYGIPS® ?

FR Restauration du plafond de l'Opéra de Wallonie.

La restauration du plafond du Grand Foyer de l'Opéra de Wallonie est un défi que Gesso est fier d'avoir pu relever. Toutes les techniques, les plus anciennes et les plus modernes ont été mises à contribution. Il ne subsistait rien d'autre que quelques vieilles photographies à peine nettes.

Les artisans de chez Gesso se sont relayés pour redessiner chaque ornement, les sculpter en terre, les mouler, les tirer ou les staffer à l'ancienne, et enfin poser ces moulures gigantesques avec le souci permanent de respecter le patrimoine d'origine, tant esthétique que technique.

NL Restauratie van het plafond van de Koninklijke Opera van Wallonië

De restauratie van het plafond van de Grote Haard van de Koninklijke Opera van Wallonië is een uitdaging dat Gesso er trots is op hebben kunnen voldoen. Alle technieken, de oudere en de meer moderne werden gebruikt. Er bleef niets anders dan alleen enkele oude nauwelijks scherpe foto's.

De ambachtslieden van Gesso hebben zich afgelost om elke versiering te opnieuw tekenen, ze in aarde beeldhouwen, ze vormen, ze trekken of ze aan oud «staffen», en tenslotte deze reusachtige lijsten leggen met de permanente bezorgdheid om het erfdeel van oorsprong te respecteren, zowel esthetisch als technisch.
